We supply parts to the Public Transit Industry, manufacturing a variety of high quality parts and products for bus and metro interiors with extra attention paid to customer service.

As a supplier of a wide variety of parts, River Drive manufactures: extruded components, custom-made high-pressure die-cast hardware, sand-cast and metal fabricated parts and specialty cut, sewn, punched and sealed nylon/polypropylene webbing and vinyl products.

We proudly work with our customers to provide new products and product design improvements.

River Drive business is conducted knowing that our customers demand high quality products and a high level of responsiveness while operating in a price-competitive industry.
